

Acknowledgements

I would like to acknowledge my indebtedness and render my warmest thanks to my supervisors, Prof. Mani Sankar Dasgupta, Head of Department, Mechanical Engineering, BITS Pilani, and Dr. Shyam Sunder Yadav, Mechanical Engineering, BITS Pilani, for their inspiration, motivation, and immense knowledge. Their valuable guidance helped me in all the time of research and writing of this thesis. It was undeniably my privilege to work under the supervision of both.

I am grateful to Prof. Souvik Bhattacharyya, Vice-Chancellor, BITS Pilani, Prof. Sudhir Kumar Barai, Director, BITS Pilani, Pilani Campus for their support and blessings. I also express my sincere thanks to Prof. M.B. Srinivas, Dean, Academic Graduate Studies and Research Division (AGSRD), and Prof. Jitendra Panwar, Associate Dean, AGSRD for their motivation, constant support, and encouragement. I am highly indebted to Dr. Venkatesh K.P. DRC convener Department of Mechanical Engineering. Sincere thank is also due to my respected DAC members Dr. Jitendra Singh Rathore and Dr. A.R. Harikrishnan, Department of Mechanical Engineering, Pilani Campus for their valuable and fruitful discussions and suggestions, and for sparing their valuable time for departmental evaluation of this thesis. I would also like to acknowledge all faculty members as well as non-academic staff of the Department of Mechanical Engineering for their support, encouragement, and cooperation.

I would also like to thank Mr. Shailendra Agarwal, Rtd. IAS, former Additional Chief Secretary (Home & Transport, Govt. of Rajasthan) for his support and cooperation given to me without which the present work would not have been possible. Sincere thanks to all research scholars of the Mechanical Engineering Department for their support. I would also like to thank my entire family that their constant love, affection, and support that has empowered me to accomplish this work. Last but not the least, I pray and thank God for showering his divine blessings and giving me inner strength and patience.
