## PREFATORY NOTE

THIS volume provides a comprehensive index to the material contained in the *Survey of International Affairs* series, from the *Survey* for 1920-3 up to and including the *Survey* for 1930; in *Documents on International Affairs* for the years 1928, 1929 and 1930; and in the following supplementary volumes—*The World After the Peace Conference* and *The Conduct of British Empire Foreign Relations since the Peace Settlement*.

In meeting the demand for a Consolidated Index to these volumes, the Council believes that it is performing a valuable service to those who are concerned with the conduct and study of international affairs. The Index will very greatly facilitate the use of the volumes for reference purposes and it is hoped that similar consolidated indexes will in future be issued at regular intervals.

The work has been produced under the supervision of Miss V. M. Boulter, the Assistant to the Director of Studies at the Royal Institute of International Affairs. The laborious task of compiling the Index from the separate volumes has been carried out mainly by Miss M. Franklin, to whom the Council wishes to express its thanks.
