

Table of Contents

Acknowledgement.....	iv
Preface.....	v
Abstract.....	ix
Table of Contents.....	xi
List of Abbreviations.....	xii
List of Figures.....	xiii
List of Tables.....	xviii
1. Literature survey, objectives and scope of work	
1.1 Introduction.....	1
1.2 Importance of VOC sensing.....	3
1.3 Carbon nanostructures for VOC sensing.....	7
1.4 Metal oxide semiconductors for VOC sensing.....	10
1.5 Carbon metal oxide nanocomposites based VOC sensors.....	12
1.6 TiO ₂ nanostructures for VOC sensing.....	15
1.7 Structure of sensors.....	17
1.8 Gaps in the research.....	19
1.9 Objectives.....	19
References.....	20
2. Synthesis and characterization of individual nanoforms of TiO ₂ and carbon ...	33
2.1 Introduction.....	33
2.2 TiO ₂ nanotubes : 1-D material.....	34
2.2.1 Synthesis.....	34
2.2.2 Characterization.....	35
2.3 TiO ₂ nanoparticles : 0-D material.....	38
2.3.1 Synthesis.....	38
2.3.2 Characterization.....	38
2.4 Precursor preparation of carbon nanostructures.....	41
2.4.1 Synthesis.....	41
2.4.2 Characterization.....	42
2.5 Conclusions.....	44
References.....	45
3. Oxygen vacancy modulated TiO ₂ nanostructures for efficient detection of VOC	49
3.1 Introduction.....	49
3.2 Oxygen vacancy modulated TiO ₂ nanotubes.....	50
3.2.1 Synthesis.....	50
3.2.2 Characterization.....	51
3.2.3 Device fabrication.....	56
3.2.4 VOC sensing.....	56
3.2.5 Role of oxygen vacancy modulation in ethanol sensing.....	60
3.3 Undoped <i>p</i> -type TiO ₂ nanoparticles.....	62
3.3.1 Synthesis.....	62

3.3.2	Device fabrication.....	62
3.3.3	VOC sensing.....	63
3.3.4	Sensing mechanism.....	64
3.4	Conclusions.....	65
References.....		66
4.	Graphene oxide and TiO ₂ nanostructures composites for efficient detection of VOCs	
4.1	Introduction.....	71
4.2	GO loaded TiO ₂ nanotube array.....	74
4.2.1	Synthesis.....	74
4.2.2	Characterization.....	74
4.2.3	Device fabrication.....	77
4.2.4	VOC sensing.....	77
4.2.5	Sensing mechanism.....	78
4.3	GO-p-type TiO ₂ nanoparticle composites.....	80
4.3.1	Synthesis.....	80
4.3.2	Characterization.....	80
4.3.3	Device fabrication.....	85
4.3.4	Electrical characterization.....	86
4.3.5	VOC sensing.....	91
4.3.6	Sensing mechanism.....	96
4.4	Conclusions.....	99
References.....		100
5.	Functionalized fullerene-C ₆₀ -TiO ₂ nanostructures composite for efficient VOC sensing	
5.1	Introduction.....	108
5.2	C ₆₀ -TiO ₂ nanotube composites.....	110
5.2.1	Synthesis.....	110
5.2.2	Characterization.....	112
5.2.3	Device fabrication.....	117
5.2.4	VOC sensing.....	117
5.2.5	Sensing mechanism.....	121
5.3	Fullerene-C ₆₀ encapsulated TiO ₂ nanoparticles.....	123
5.3.1	Synthesis.....	123
5.3.2	Characterization.....	124
5.3.3	Device fabrication.....	127
5.3.4	VOC sensing.....	127
5.3.5	Sensing mechanism.....	130
5.4	Conclusions.....	132
References.....		133
6.	Summary, conclusion and scope of future work.....	138
6.1	Summary of the current work.....	138
6.2	Conclusion.....	141
6.3	Scope of future work.....	144
