

ACKNOWLEDGEMENTS

The famous philosopher **G. K. Chesterton** once said, “*I would maintain that thanks are the highest form of thought; and that gratitude is happiness doubled by wonder*”.

I would like to acknowledge everyone, who helped me in realizing my long-cherished dream of pursuing research in an industrial setting culminating in this Ph.D. thesis. It would not have been possible without the people who supported and believed in me.

I consider myself to be immensely fortunate for I am a student of the Birla Institute of Technology and Science (BITS), Pilani, an institute of eminence in the country. It is my privilege to have **Dr. Paul Atish Tulshiram** from the Department of Pharmacy as my research guide and I wish to express my deepest sense of gratitude and courteous regards to him.
