
Acknowledgements

I wish to express deep and heart full thanks to my thesis supervisor, Prof. Dr. M Ramachandran, Founder Director, BITS-Pilani, Dubai Campus, and my thesis Co-supervisor Prof. Calvin Sophistus King for their able guidance, encouragement, motivation and suggestion throughout the period of this research work. It has been a great privilege for me to work under their guidance.

Gratitude is accorded to BITS-Pilani, Rajasthan, India for providing me the opportunity to do research with this great institute. I also express my thankfulness for the kind encouragement and guidance given by Prof. Bijendra Nath Jain, Vice Chancellor, BITS Pilani, Prof. G Raghurama, Director, BITS Pilani, Prof. R K Mittal, Director, BITS Pilani Dubai Campus and Prof. S K Verma, Dean, Research and Consultancy Division, BITS-Pilani.

I express my sincere gratitude to Mr. Syed M Salahuddin, Managing Director, ETA Ascon Star Group, Dubai, United Arab Emirates and Mr. Abid A Junaid, Executive Director, ETA Ascon, Dubai, who constantly supported my research work by giving consent and encouragement.

I would also like to thank my colleagues, S.R.Pitchumani, M.Karthikeyan Jr., M Karthikeyan, Sirajudeen, Mahesh Anand and Respudeen for providing me with data and constant support throughout my research work. I gratefully acknowledge the support of other colleagues at the Plant and Machinery Division of Ascon.

My heartfelt thanks to my beloved wife Waheetha, our dear kids Inzamam and Fadhila and my niece Hussaina Banu for their endless encouragement and great support for doing my research work.

Finally, I pray and thank Almighty God for keeping me well to do all my work and good efforts.
