

## TABLE OF CONTENTS

<b>S.No.</b>	<b>Description</b>	<b>Page no.</b>
A	Abstract	v
B	Table of Contents	viii
C	List of Tables	ix
D	List of Figures	xviii
E	List of Abbreviations	xx
<b>CHAPTER 1</b>	<b>INTRODUCTION</b>	<b>1-10</b>
1.1	Introduction	1
1.2	Travel Behavior: Trends and Determinants	3
1.3	Role of Transportation Sector in Climate Change	4
1.4	Gender and Travel Behavior: Establishing the Relationship	7
1.5	Objectives	9
1.6	Structure of the Thesis	9
<b>CHAPTER 2</b>	<b>REVIEW OF LITERATURE</b>	<b>11-30</b>
2.1	Introduction	11
2.2	What is Travel Behavior/ Travel Pattern?	12
2.3	Trends in Travel Pattern across the Globe	13
2.4	Travel behavior in Rural-Urban Areas	15
2.5	Use of Public Transportation Services: Trends, Determinants and Issues Related	15
2.6	Gender and Mobility	19
2.7	Gender and Measures of Travel Pattern	20
2.7.1	Trips by Purpose	21

2.7.2	Trips by Mode of Transport	22
2.7.3	Trips by distance covered	24
2.7.4	Trips by Frequency	24
2.8	Socio-Demographic Factors and Travel Behavior	25
2.8.1	Age	25
2.8.2	Socioeconomic Status	26
2.8.3	Work Status	26
2.8.4	Education	27
2.9	Gender-Sensitive Transport Planning	27
2.10	Research Gaps	28
2.11	Research Questions	28
2.12	Summary of literature review	29
<b>CHAPTER 3 RESEARCH METHODOLOGY</b>		<b>31-75</b>
3.1	Introduction	31
3.2	Research Process	32
3.3	Development of Research Framework	32
3.4	An Outline of Research Techniques Employed	33
3.4.1	Section-I	33
3.4.1.1	Part-I	34
A)	Study areas	34
B)	Data sources and description of variables employed	35
C)	Methodology	37
3.4.1.2	Part-II	38
A)	Data Sources	38
B)	Methodology	39

3.4.1.3	Part-III	43
A)	Introducing the study area	42
B)	Data and methodology	44
3.4.1.4	Part-IV	46
A)	About data	46
B)	Methodology	49
3.4.2	Section-II	50
3.4.2.1	Part-I	52
A)	Data and Methodology	52
3.4.2.2	Part-II	54
A)	Data	54
B)	Methodology	56
3.4.2.3	Part-III	57
A)	Data	57
B)	Methodology	60
3.4.3	Section -III	61
3.4.3.1	Part-I	62
A)	About data	62
B)	Methodology	65
3.4.3.2	Part-II	69
A)	About data	69
B)	Methodology	72
3.5	Conclusion	75

<b>CHAPTER 4</b>	<b>DATA ANALYSIS AND RESULTS</b>	<b>76-184</b>
4.1	Introduction	76
4.2	Analysis and Discussion	78
4.2.1	Section-I	78
4.2.1.1	Part-I	78
4.2.1.2	Part-II	95
(I)	Descriptive Statistics	95
(I) (a)	General regional and commuting characteristics	95
(I) (b)	Travel modes	99
(I) (c)	Commuting distances	102
(II)	Regression results	108
(II) (a)	Travel modes	108
(II) (b)	Commuting Distances	113
(II) (c)	The superiority of public and non-motorized transport over individual motorized transport	116
4.2.1.3	Part-III	119
4.2.1.4	Part-IV	127
(A)	Descriptive analysis	127
(B)	Estimation results of multinomial logit models of mode choice	133
4.2.2	Section-II	140
4.2.2.1	Part-I	140
4.2.2.2	Part-II	144
(A)	Descriptive Statistics	144
(B)	Logit model of sustainable mode choice	149
4.2.2.3	Part-III	153

(A)	Descriptive Statistics	153
(B)	Logit model of choice of less-polluting modes of transport	161
4.2.3	Section -III	163
4.2.3.1	Part-I	163
4.2.3.2	Part-II	176
4.3	Conclusion	184
<b>CHAPTER 5</b>	<b>SUMMARY OF FINDINGS AND CONCLUSION</b>	<b>185-201</b>
5.1	Introduction	185
5.2	Conclusion and Discussion	185
5.2.1	Gender Differences in Travel Pattern in Urban and Rural India	185
A)	Gender Differences in Travel Pattern in Urban and Rural Regions of Indian States	185
B)	Gender Differences in Travel Pattern in Urban and Rural Regions of India's Most Populous State	186
C)	Gender Differences in Travel Pattern in Urban and Rural Areas of Rajasthan	187
D)	Factors Affecting Gender Differences in Travel Pattern in Urban and Rural Settings of Rajasthan	188
5.2.2	Impact of Socioeconomic Factors on Gender Differences in Travel Behavior	190
A)	Class and Gender Differences in Travel Behavior	190
B)	Impact of Socioeconomic Factors on Choice of Mode of Transport	190
C)	Impact of Socio-demographic Factors on Mode Choice for Non-Work Purposes	191

D)	Gender Differences in Influence of Socio-Demographic Factors on Mode Choice	192
5.2.3	Gender-Sensitive Transport Planning	192
A)	Gender Gap in Travel Behavior and Public Opinion on Proposed Policy Measures	192
B)	Threat to Safety as a Reason for Trade-Off of Public Transport with Private Modes	193
5.3	Remedy	194
5.4	Policy Implications of the study	195
5.5	Theoretical Implications of the Study	198
5.6	Novelty of the Research Work	199
5.7	Limitations of the Study	199
5.8	Future Scope of Work	201
	<b>REFERENCES</b>	<b>202-225</b>
	Appendix: Questionnaire	226
	List of Publications and Papers Presented in Conferences	238
	Brief Biography of the Supervisor	241
	Brief Biography of the Co-Supervisor	242
	Brief Biography of the Candidate	243

### List of tables

<b>Table</b>	<b>Description</b>	<b>Page no.</b>
Table 1	State percentage share in total transport use in India segregated by area and gender	78
Table 2	Share of each state in total motorized transport use of the country separated by gender and area	81
Table 3	Distance travelled by majority of the workers in the state differentiated by gender and area	84
Table 4	Percentage of efficient travel behavior displayed by Indian states, segregated by area and gender	86
Table 5	Socio-demographic differences in the selected states	89
Table 6	Pairwise correlation coefficients between the variables	92
Table 7	Beta regression results for factors affecting efficient travel behavior	94
Table 8	Characteristics of the 8 districts studied	95
Table 9	Share of commuters (%) among non-agricultural workers and among all workers, differentiated by district, area and gender	97
Table 10	Modal use by district, area and gender (% of total commuting trips)	99
Table 11	Commuting trip lengths (% of total commuting trips) by district, area and gender	103
Table 12	Most frequently used mode of commuting, by district, area, distance class and gender	106
Table 13	OLS regression results for modal shares of male and female commuters	109
Table 14	OLS regression results for distance classes of male and female commuters	113

Table 15	OLS regression results for predominance measures	116
Table 16	Trip incidence and most frequently travelled distance by work status, area and sex	119
Table 17	Modal share by work status, area and sex	121
Table 18	Trips by purpose, work status, area and sex	123
Table 19	Modal share by purpose, area and sex	124
Table 20	Modal share by distance categories, area and sex	125
Table 21	Trip purpose by distance categories, area and sex	126
Table 22	Summary of sample statistics	131
Table 23	MNL model results for impact of socioeconomic factors on choice of mode of transport by men in urban area	133
Table 24	MNL model results for impact of socioeconomic factors on choice of mode of transport by women in urban area	134
Table 25	MNL model results for impact of socioeconomic factors on choice of mode of transport by men in rural area	135
Table 26	MNL model results for impact of socioeconomic factors on choice of mode of transport by women in rural area	136
Table 27	Aggregate point elasticity estimates	137
Table 28	Trip incidence and trip length by socioeconomic groups and sex	140
Table 29	Modal share by socioeconomic groups and sex	141
Table 30	Daily trips by purpose by socioeconomic groups and sex	143
Table 31	Brief summary of sample characteristics	148
Table 32	Logistic regression results for impact of socioeconomic factors on sustainable mode choice of male	149

Table 33	Logistic regression results for impact of socioeconomic factors on sustainable mode choice of female	150
Table 34	Percentage of total population traveling for different non-work related purposes by socio-demographic characteristics	159
Table 35	Brief summary of sample characteristics	160
Table 36	Logistic regression results for impact of socio-demographic factors on choice of less polluting modes of transport for non-work related activities	161
Table 37	Brief summary of sample characteristics	166
Table 38	Chi- square test of association between outcome and each independent variable	167
Table 39	Point biserial correlation between categorical outcome and continuous independent variable	167
Table 40	Univariate probit model for distance travelled	168
Table 41	Univariate probit model for mode of transport used	169
Table 42	Bivariate probit model for distance travelled and mode of transport used	170
Table 43	Seemingly unrelated bivariate probit model for mode of transport used and distance travelled	172
Table 44	Brief summary of sample characteristics	176
Table 45	Chi- square test of association between outcome and each independent variable	177
Table 46	Univariate probit model for use of public transport	178
Table 47	Univariate probit model for rationale for not preferring public transport over private	179

Table 48	Bivariate probit model for use of public transport and rationale for not preferring public transport over private	181
Table 49	Seemingly unrelated bivariate probit model for use of public transport and rationale for not preferring public transport over private	183

## List of Figures

Figure	Description	Page no.
Figure 1	Research Process	32
Figure 2	Gender gap in total mode use in rural India	80
Figure 3	Gender gap in total mode use in urban India	81
Figure 4	Gender gap in motorized mode use in rural India	83
Figure 5	Gender gap in motorized mode use in urban India	84
Figure 6	Gender gap in efficient travel behavior in rural India	88
Figure 7	Gender gap in efficient travel behavior in urban India	89
Figure 8	Display of efficient travel behavior by the districts of the selected states	91
Figure 9	Modal share by socioeconomic status in urban area	128
Figure 10	Modal share by socioeconomic status in rural area	128
Figure 11	Modal share by work status in urban area	129
Figure 12	Modal share by work status in rural area	129
Figure 13	Modal share by level of education attained in urban area	130
Figure 14	Modal share by level of education attained in rural area	131
Figure 15	Modal share by trip length for male	142
Figure 16	Modal share by trip length for female	143
Figure 17	Gender disparities in sustainable mode choice	144
Figure 18	Disparities in sustainable mode choice by work status and gender	145

Figure 19	Disparities in sustainable mode choice by educational attainment and gender	146
Figure 20	Disparities in sustainable mode choice by socioeconomic groups and gender	147
Figure 21	Percentage of total population travelling for different non-work related purposes	153
Figure 22	Gender-wise distribution of choice of mode of transport	154
Figure 23	Distribution of choice of mode of transport among various age groups	155
Figure 24	Distribution of choice of mode of transport among different socioeconomic groups	156
Figure 25	Distribution of choice of mode of transport among different groups of educational attainment	157
Figure 26	Distribution of choice of mode of transport based on work status	158
Figure 27	Gender differences in frequency of travelling	164
Figure 28	Gender differences in distance travelled	164
Figure 29	Gender-wise distribution of type of mode of transport used	165
Figure 30	Gender differences in purpose of travelling	165
Figure 31	Preference for women-only public transport	174
Figure 32	Preference for women drivers of women-only public transport	174
Figure 33	Preference for women drivers of gender-neutral public transport	175
Figure 34	Preference for free tickets for women on public transport	176

## **List of Abbreviations**

IPT	Intermediate Public Transport (IPT),
GII	Gender Inequality Index
PMVs	Personal Motorized Vehicles
OLS	Ordinary Least Squares
CLRM	Classical Linear Regression Model
BLUE	Best Linear Unbiased Estimator
MNL	Multinomial Logit
IIA	Independence of Irrelevant Alternatives
CDF	Cumulative Distribution Function
SURE	Seemingly Unrelated Regression Equations
VIF	Variance Inflation Factor
GDVA pc	Gross District Value Added Per Capita
NSDP	Net State Domestic Product
HDI	Human Development Index
GER	Gross Enrollment Ratio
MRP	Mixed Reference Period
INR	Indian rupee
NSSO	National Sample Survey Office
MOSPI	Ministry of Statistics and Programme Implementation
NMT	Non-Motorized Transportation
MTW	Motorized Two-Wheeler
MFW	Motorized Four-Wheeler
SEG	Socio-Economic Group

M4W	Motorized Four-Wheeler
M2W	Motorized Two-Wheeler
UM	Urban Male
UF	Urban Female
RM	Rural Male
RF	Rural Female
KL	Kerala
UP	Uttar Pradesh
NCT	National Capital Territory
NCR	National Capital Region
UNEP	United Nations Environment Programme
ECOSOC	United Nations Economic and Social Council
UNDP	United Nations Development Programme
WHO	World Health Organization
MoUD	Ministry of Urban Development
